## TO WHOME IT MAY CONERN

This is to certify that Mr Adhiraj Singh has completed his App Development internship for HuTouch at Niiti and while doing so excelled at it.

He worked as an App developer using React Native for Android OS and went above and beyond to demonstrate his skills in problem solving and technology. As part of the internship, he:

- Researched and designed new features (from scratch) for HuTouch that is the 1<sup>st</sup> of its kind on Android play store
- Developed and unit tested features using React Native & Android for HuTouch
- Created and supported Alpha environments on Google play for real users

Most importantly, he was a great team player and was reliable in picking up complex tasks on his own.

We wish him all the best for his future endeavors.

Warm regards,
